

Current Committee Membership

Campus Sustainability Task Force

The Campus Sustainability Task Force will work under the auspices of the Campus Sustainability Steering Committee to shape the vision and plan of action for campus sustainability at MIT. The Task Force, working with the Office of Sustainability, will provide a forum to share the campus sustainability perspectives of the MIT Energy Initiative, MIT Environmental Initiative, and Committee on the MIT Climate Change Conversation. Its membership will work to engage the MIT community--faculty, students and staff from across the schools and interdisciplinary laboratories--with regard to campus sustainability. It will make recommendations to the Campus Sustainability Steering Committee for endorsement.
