Undergraduate Program, Committee on the

The Committee on the Undergraduate Program exercises oversight for the undergraduate academic program including the freshman year, the General Institute Requirements, and other interdepartmental educational activities. The Committee considers proposals that would establish or change educational policies related to the undergraduate program, and it makes appropriate recommendations on these proposals to the MIT Faculty. One of the CUP’s particular responsibilities is in encouraging innovation and experimentation in undergraduate education and therefore, it has the authority to approve limited educational experiments and grant exceptions to existing policy and procedure in these cases.

From Rules and Regulations:

The Committee on the Undergraduate Program shall consist of seven elected faculty members, the Associate Chair of the Faculty, four undergraduate student members, and ex officiis, the Chancellor (or designate), the Dean for Undergraduate Education, and one member designated by the Dean for Undergraduate Education. The Chair of the Faculty shall appoint the Chair of the Committee from the group consisting of the seven elected members and the Associate Chair of the Faculty.
